## PROFILE

Final-year BSc Computer Science student at the University of Greenwich, specialising in AI and machine learning. I build systems end to end — a dual-engine crime-forecasting pipeline, a Rust agentic OS, and a multi-service poker app — and I ship them fast. I care about building things people would actually pay for.

## SKILLS

Python · Rust · TypeScript/React · Java · Swift/SwiftUI · C · R · SQL · PyTorch · XGBoost · Postgres · Redis · Docker · FastAPI · Git

## EDUCATION

**University of Greenwich** 2024 — 2027  
BSc Computer Science, AI & Machine Learning specialism (final year)

## SELECTED PROJECTS
